

# IT'S TRUE, I'M GOLD

**I want my life to mean something. I need to be a useful person. I believe that we all earn our way in this life. Now some people think I'm too serious to have much fun. I believe in having fun, I love to laugh. But I just can't enjoy myself until I know that everything that needs to be done is completed. I know that we all affect each other and I believe that we must cooperate to preserve the traditions and customs that make our society worth living in. I need to have goals in my life and if I tend to organize other people's lives, it is only because I care.**

**Yes, I do go for the GOLD!**
